

Don't let the UAW turn Atlantic City into the next Detroit

UNITED AUTO WORKERS

EVERYONE loses...

Can you believe that the UAW wants you to think that we won't bargain with them? That's NOT true. It's no wonder, since the UAW track record is nothing but bad news:

Bankrupt American Auto Industry...

Millions of Dollars in Taxpayer Bailout of Pensions...

Lost Wages, Thousands of Lost Jobs, Lost Opportunities...

Government Take-Overs...

Caesars has held more than 50 good faith bargaining sessions in hopes of coming to agreement on a contract that is reasonable, economically feasible and allows us to remain competitive.

It can be done...just ask our other union partners.

EVERYONE loses if Atlantic City Can't Compete
